

FACULTY OF FORENSIC & LEGAL MEDICINE

of the Royal College of Physicians of London

Substance Misuse and Drug Facilitated Crime

Saturday 24 November 2018

Holiday Inn, Regent's Park, Carburton Street, London, W1W 5EE

Objectives

- To describe the role of the controlled drugs liaison officer with the ability to identify local trends in CD markets.
- To identify the effects of the newer recreational drugs, and the potential for involvement in forensic cases in custody, at sexual assault referral centres, and at the scene of sudden unexpected death.
- To describe the toxicology of deaths in custody.
- To discuss changes to the management of substance misuse detainees in police custody (following the revision of the Blue Guidelines) especially in relation to the management of body packers.
- To explain what is Chemsex and its importance in the forensic environment.
- To discuss the use of Chemical agents.
