Effective handover from the 'detained' to 'secure' estate - how can we close the gap to improve patient care

Wednesday 29 July 2020

Learning Objectives

The learning objectives of this webinar are:

- Introduction overview of Prison Medicine
- Reception Screening - First night and second stage
- Health and Justice Information System
- The care in Police Custody and how this can impact on clinical assessment in the Prison setting
- Information sharing - identified risks and handover
- Preparation for release and discharge planning
- Pandemic response and COVID-19 and the effect on the prison regime

Presenter

Dr Jake Hard

Dr Jake Hard is a GP with special interests in substance misuse and prison medicine. He is the Chair of the Royal College of GP's Secure Environments Group and the Clinical Lead for the Health and Justice Information System (HJIS). He has over 13 years' experience of working in prisons, including England and Wales (public and private sector). As a Clinical Reviewer, he has assisted the Prison and Probation Ombudsman in investigating 15 Deaths in Custody. He has extensive experience as an Expert Witness in clinical negligence in the prison setting. He is the Medical Director for Prisons for CRG Medical Services.
