The young person understands the health professional's advice.

The young person is aware that the health professional cannot inform his/her parents that he/she is seeking sexual health advice without consent, nor persuade the young person to inform his/her parents.

The young person is very likely to begin having, or continue to have, intercourse with or without contraceptive/sexual health treatment.

Unless he/she receives contraceptive advice or treatment the young person's physical or mental health, or both, are likely to suffer.

The young person's best interests require the health professional to give contraceptive advice, treatment, or both without parental consent.
