Pro Forma

Assessments (alcohol & drugs) under the RTA

Sep 2020 Review date Sep 2023 - check www.fflm.ac.uk for latest update

This form has been designed by Prof Ian Wall and updated by Dr Margaret Stark on behalf of the Faculty of Forensic & Legal Medicine (FFLM) for use by Healthcare Professionals (HCPs) who have been trained to the *Quality Standards of Drug-Driving competencies* as defined by the FFLM.

The form is provided to assist HCPs in determining whether a person has a condition, which may be due to drink or drugs. It is very important to try and establish the type of drug that has been used and whether this drug is prescribed (statutory medical defence). There is no requirement to establish impairment but if competent the HCP may provide an opinion.

The form is to be regarded as an aide-mémoire and it is therefore not necessary for all parts of the form to be completed. Some details are included so as to aid possible subsequent assessment of fitness for detention in custody. On completion this form is the property of the examining HCP. It is not appropriate for any clinical assessment including taking samples to be video recorded.

1. General Details

Name	Preliminary Impairment Test (PIT) results				
Address					
Date of birth					
Occupation					
Police Station	Information from Police / Risk Assessment				
Custody record No					
PNC Warning					
Arrest Date					
Arrest time					
Time called	3. Consent (for Section 4 RTA Assessment)				
Time arrived	Consent witnessed by				
Time examination started	•				
Time examination completed	you have a condition which might be due to drink or drugs.				
Time case completed	not be treated confidentially, as I may have to give a report				
2. Background Information	to police and the court. You may decline this examination.				
Roadside breath test	"Do you agree to this examination?" YES □ NO □				
Evidential breath readings	If NO, make observations of accused's behaviour				
Drugwipe result					
Information from arresting officer (PC)				
	If YES, consider written consent				
	I consent to this examination as explained to me above:				
	Signed
